

## CanDeal Debt Market Data

*“I need quality debt market data to help me make decisions – on my desktop where I can get it when I need it. I don’t like to phone around for inside prices. It’s distracting and tips my hand.” – Portfolio Manager*

**Save time. Gain insight into the market. CanDeal Debt Market Data: comprehensive, accurate, real-time debt pricing. Available now.**

### Bringing transparency to Canada’s debt market

The CanDeal Debt Market Data service allows investors and traders to access an unprecedented level of transparency in Canada’s debt marketplace. Sourced directly from Canada’s primary dealers, this service delivers the best bid and ask prices that are available in the market directly to your desktop.

### The power of knowledge

With CanDeal Debt Market Data, make portfolio investment decisions on a comprehensive range of highly liquid instruments – knowing the prices you are using in your analysis are real, available and delivered in real-time for all securities throughout the day.

### Boost your performance

CanDeal Debt Market Data eliminates the need to call around to establish prices for fixed income securities. You have instant access to the best pricing for every instrument, all day long and these prices feed directly into your analytic tools for optimum results. CanDeal data gives you the scope to generate new trading ideas, locate value, execute faster at a better price, and improve your portfolio returns.
